

POWERING PROGRESS

# From Grid Integration to Solar EPC.

Cosmic Electrical Limited, a proven leader in power infrastructure and grid integration, has successfully delivered numerous projects as an EPC contractor.

## Who We Are:

**Cosmic Electrical Limited**, a proven leader in power infrastructure and grid integration, has successfully delivered numerous projects as an EPC contractor. We've connected hydropower plants to national grids, ensuring reliable and efficient power transmission. Leveraging this expertise, we are now expanding into Solar EPC, providing complete solutions from design to grid integration.

## Our Expertise:

### Proven EPC Contractor for Grid Integration

Successfully integrated numerous hydropower plants into national and regional grids.

### End-to-End Solar EPC Services:

Comprehensive solutions from feasibility studies to commissioning.

### Seamless Renewable Energy Integration

Mastery in integrating multiple renewable energy sources into the grid.

### Advanced Engineering and Project Management:

Powered by SAP Business One for efficient project execution.

## Why Choose Us for Solar EPC?

Mastering grid integration and custom solar solutions, we deliver seamless energy with precision. Count on us for quality, efficiency, and a greener future—on time, every time.

# Hydropower Integrations.

**Hydropower Grid Integration Projects:**  
Successfully connected numerous hydropower plants to the national grid, ensuring stable and efficient power supply.

**Darchula Rural Electrification Project:**  
Overcame challenging terrains to bring electricity to remote communities.

## Our Core Services:

- ✓ Feasibility Studies & Site Analysis
- ✓ Detailed Engineering Design
- ✓ Procurement of High-Quality Solar Components
- ✓ Construction & Installation
- ✓ Grid Integration & Commissioning
- ✓ Operation & Maintenance (O&M)

## Contact Us Today!

Let's collaborate to bring clean and reliable solar energy to your project.
